

Sound Seal Introduces Inspire Art Custom Printed Acoustic Wall Panels

Custom printed acoustic wall panels bring a heightened aesthetic value to any space

AGAWAM, Mass. – March 1, 2016 – [Sound Seal](#), a leading manufacturer of acoustical and noise control products serving the industrial, architectural, commercial and construction industries, announced today the latest addition to their acoustic wall panel offering- [Inspire Art Custom Printed Wall Panels](#). Inspire Art Panels are manufactured to the highest standard and provide the ultimate in performance with excellent NRC ratings.

Inspire Art Custom Printed Panels are the perfect acoustic and aesthetic solution for various interior noise reducing applications. These printed wall panels are great for schools, universities, offices, airports, churches, restaurants or any space where excess reverberation is a problem.

“We are very excited to offer the opportunity for our clients to customize their space,” said Dave Gilbert, General Manager for Sound Seal. “By giving the client the option to combine printed panels with standard fabric panels, we are allowing them to add acoustic value to the space while also gaining aesthetics with their own personal touch”.

Available in 1/2”, 1” and 2” thicknesses, Inspire Art Custom Printed Panels are constructed with a 6-7# PCF rigid fiberglass absorber core. The edges are chemically hardened and are available in four edge profiles. To learn more about Inspire Art Panels, visit our [website](#).
